

HOW TO START

# HEALTHY eating

(NO CHEATING)

This plate gives you an idea of how much of each food group you should eat to make sure you have a healthy, balanced diet!

Reg the Veg

When tomatoes grow they start off green, then turn orange and finally go red when they are ripe enough to eat. How many ripe tomatoes can you see?

# RAINBOW FOOD!

It's good to eat foods in a variety of colours because they contain different nutrients and vitamins. These help our body to grow and stay strong.

Yellow food can be good for your brain!

Join the dots on the pineapple!

Orange food can be good for your eyes!

Colour the eyes and carrot!

Red food can be good for your heart!

How many hearts? ●

How many strawberries? ●

Purple food can help protect against pain!

Can you solve the plum sums?

$2 + 7 =$

$9 - 4 =$

$10 \times 2 =$

Green food can help to keep bones strong!

Unscramble the letters!  
Which type of veg is this?

B L B I C O  
R L C O C O

White food can help fight infections!

Draw a mushroom!

FACT!

CUCUMBERS ARE MADE UP OF 96% WATER!

My favourite food is: \_\_\_\_\_

# COLOUR HEALTHY VALLEY

Honeybees are very important because they pollinate all sorts of fruit and vegetables, helping them to grow!
